Diagram showing Benefits and Coverage

# Portfolio management by using Dynamic Asset Allocation of My Double Plus (Participating)

Diagram showing investment proportions according to economic conditions

**The economic expansion period:**  
Increase investment proportion in high-risk assets to increase the opportunity to receive higher returns.

**The economic stagflation period:**  
Decrease investment proportion in high-risk assets to reduce investment risk.

## Efficient portfolio management

Managing investments by using an expert system.

Regularly adjusting the investment portfolio to align with the market movement.

Monitoring the returns on an investment regularly.

### Remarks

- It is an unofficial document and is for the translation only.
- My Double Plus (Participating) is a life insurance product offering both saving benefit and life coverage. It is not a bank deposit, so there is no interest. To receive the maximum benefits under a Policy, the Insured shall pay premium on a due date in full and through a premium payment term, and shall hold the Policy until the end of policy period as specified in the Policy. In case of the policy surrender, the Insured may get benefits less the total premiums paid.
- A life insurance premium is able to claim for a personal income tax deduction according to the Revenue Department regulations. However, if the insurance policy ineffective before the period of 10 years or you do not comply with the Revenue Department regulations. You may be taxed.
- The premium payment is the obligation of the Insured. The collection of premium by the Agent or Broker is only service.
- This information contained herein is provided as illustrative information only. The customer is advised to study further information regarding an insurance coverage, terms and conditions, exclusions and benefits from the Company's policy only.
- The customer should understand the details, coverage, and conditions of the insurance plan before applying the insurance.
